## The White Shoe Trend

STYLE TRENDS

rachel belkin | APRIL 3, 2018

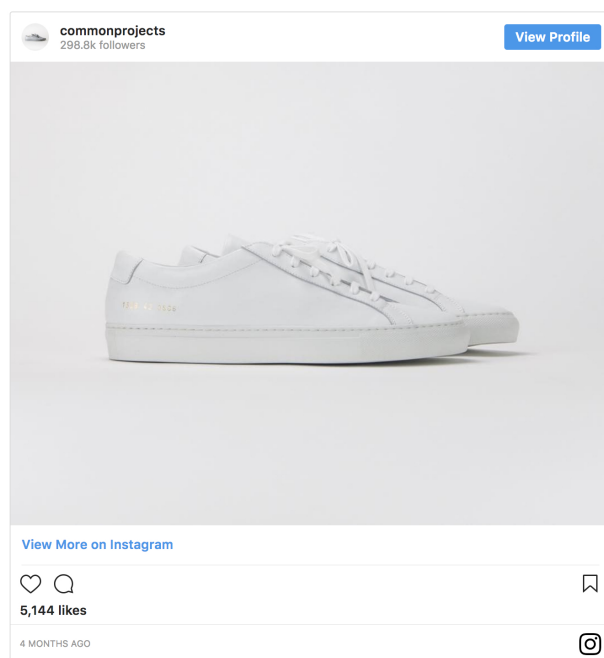

Wearing white used to come with lots of rules. Don't wear it in the winter. Don't wear it before Memorial Day, after Labor Day and never wear it to a wedding (unless you are the bride). These days, wearing white all year round is considered uber-fashionable—especially when it is on your feet. White shoes are one of the hottest trends right now and it's time to hop on board. From classic sneakers to sleek mules, I've narrowed down some current favorites that are perfect for wearing now through the summer.

## Chic sneakers

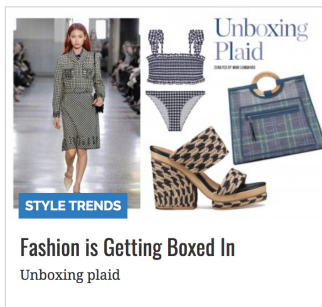

Go white with a shoe that will never go out of style. These pristine [white leather tennis shoes](#) from cult brand Common Projects are a smart investment in classic style. Their minimalist design makes them an effortless addition to any wardrobe. Wear them with trousers and a silk blouse to work, with jeans on Saturday morning and with a floral mini dress for a night out.

## Striking mules

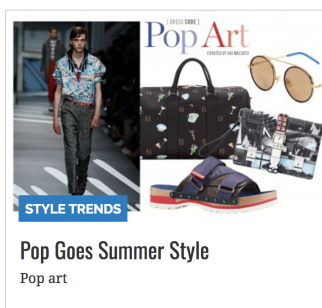

Mules are still on my must-have list. The pointy toe [Harlie style by Marc Fisher](#) is a modern version of what Madonna might have worn in a 1980s music video. The cone heel's strong architectural element makes it perfect for pairing with a distressed straight leg jean like the [Noella from Paige](#) and a basic tee or with a flowing black dress for a cool color contrast.
